Washing Hard Surfaces	<ul style="list-style-type: none"> Washing of outdoor hard surfaces such as driveways and footpaths not permitted except for health and safety purposes (washing only allowed in immediately affected area and with use of a high pressure/low volume water device)
Indoor Activities	<ul style="list-style-type: none"> 4 minute showers OR 1 bath/person/day (150mm deep) Water wise actions required - ie. only use washing machine and/or dishwasher when full, turn taps off when brushing teeth, check for dripping taps and fix leaks

* Car washing of private vehicles should be carefully considered and only undertaken if absolutely required. Car washing at registered indoor public hand car washes is permitted and car washing at registered undercover hand car washes is permitted. Car washing at automated car washes is also permitted.

** Permits may be granted to indoor public pools and hydrotherapy pools. Permits may also be granted covering private pools for the express purpose of minimising damage to pools. Further conditions will apply. Visit the web site for additional information.

Extreme Water Restrictions For Bathurst Water Supply Users

COMPLIANCE

Water restrictions will be **ENFORCED** from Monday 14 October 2019.
A range of penalties apply for non-compliance.

**EXTREME WATER RESTRICTIONS
BATHURST REGIONAL COUNCIL
DROUGHT MANAGEMENT PLAN: LEVELS 4-5**

RESIDENTIAL

Council reminds customers that maintaining health, safety and hygiene is a priority – conservative water use for these purposes is permitted regardless of water restriction level.

Council does not actively enforce indoor water use restrictions, however residents are asked to be conservative with indoor water consumption.
